Proceedings of the Council.

Special Meeting.

Present—All the aldermen.

A claim from P. A. Pierce for work on

Centre Avenue was referred to the judiciary

committee, and one or two accounts were

sent to the finance committee.

The following accounts were allowed by

the council:

G. H. Curtis, \$23.96

T. H. Drummond, filling streets in

1st ward, 33.65

John Ryan, burying cow, 2.00

T. H. Drummond, work in 2d ward, 50

Martin Brown, 4th ward fund, 8.00

The following applications for license to

sell spirituous liquors were granted: Wm.

Kenary, D. R. Huganin, Grant & Long, J.

C. Gray, B. Spence, Thos. Graham, T. B.

Woolisort, M. Geise, George Harvey,

Frederick Marsh, O. F. Meyer & Bro.,

Wm. Keelston, John Lill, Henry Ham-

mond, John Roethinger, G. Fritz, M. Dunn

& Co., Lewis Wilbur, H. McKinney, R. M.

Hollister, John Dunn, Patrick Connors,

Henry Wagman, George Powell, W. G.

Wheeler, John Scheikar, A. Wheeler,

Henry Nente, Peter Loyden, S. Hocking,

Patrick Mullen, Brown & Ryan, James

Mahoney, H. D. Smith—Total \$4.

In a portion of the bonds accompanying

these applications the sureties omitted to

justify as prescribed by the statute, and a

long discussion ensued as to the necessity

of enforcing that provision. It was con-

tended by some of the members of the

board that the omission to justify did not

invalidate the license or the bond, while

others thought it necessary to follow all the

provisions of the statute. All the bonds

were finally approved, Ald. Winans voting

in the negative.

On motion of Ald. Collins, an order

was adopted for repairing Main street be-

tween Court and Racine streets.

The finance committee reported the

monthly statement of the city treasurer

correct, and called attention to a deficiency

of \$189.57 in the account of the late treas-

urer, with a recommendation to take action

to recover the deficiency.

Some discussion ensued, which resulted

in leaving the matter still in the charge of

the finance committee.

The bridge committee were instructed to

report at the next meeting what repairs

are necessary on the Monterey bridge, with

an estimate of the cost.

Adjourned to next Thursday evening.

The Band of Hope.

A notice appears in our columns to-day

for a meeting of the Band of Hope to-mor-

row forenoon. This meeting, we under-

stand is a renewal of the meetings held last

summer which were so well attended and

which so much interested the children of

the city.

There is not among all the reformatory

movements of the day a more useful or

hopeful organization than the "Band of

Hope." Commencing with the children of the

country, with no evil habits to be eradicated

or combated, and when correct habits

are easily implanted, this "Band" works

efficiently in a field where the best results

will soon develop themselves. Every pa-

rent ought to give it a zealous support, and

every philanthropist his best effort for its

permanence and success.

DEATH OF LIEUT. DEANISH.—Gen. Fred-

erick passed through this city to-day, from

Pittsburg Landing. He stated that Lieut.

Richard D. Deanish, of Co. G, (Janesville),

Eight Wisconsin regiment, was killed at

the severe skirmish with the rebels on

the 8th inst., which occurred in front of

Gen. Pope's division. Lieut. D. had lived in

this city for some years previous to his

enlistment, was an efficient member of our

fire department, and widely known and

much respected. His death is much re-

gretted, especially by the members of En-

for a list of the wounded in the battle of

Williamsburg sent to the hospital in Bal-

timore. From it we extract the following

belonging to the 6th Wisconsin regiment.

All of them, commencing with Thomas

Thorngate, are in the national hospital,

Forever float that standard sheet!

From Pittsburgh Landing.

We learn from gentlemen directly from Pittsburgh Landing that the loss of the 8th Wisconsin, in the severe skirmish on the 8th inst., was four killed and thirteen wounded. We hear of no names except that of Lieut. Beamsch of this city.

Two hundred and eighty sick Wisconsin soldiers were left at the hospital in St. Louis, on Wednesday. There are about 4,000 of Gen. Halleck's army in the general hospital at Hamburg on the Tennessee river.

Our army is less than two miles from Corinth, and a battle must take place in a few days. Heavy siege guns are being put in position by our army, while entrenchments are thrown up as they advance.

"Forever Free."

These are the inspiring words which Gen. Hunter has used to the one million of slaves in the states of South Carolina, Georgia and Florida. Although true and loyal to the Union, while their masters are traitors, they have not heretofore been recognized as in existence by our government. Now, through one of its trusted commanders, it invites them to assume the attributes of manhood, and form themselves into companies, regiments and brigades, and fight against their rebel masters for the Union and for freedom.

This determination has not been taken too soon. Without taking into account the rights of these loyal colored men, and thinking only of our army there, this act of Gen. Hunter was necessary to save from death the troops under his command. The yellow fever will soon be upon him, and he must have soldiers inured to the climate. He finds them all around him ready and willing, if he will give them the rich boon of liberty. He has done it, and they will respond to his call.

It is possible that the friends of the system of slavery, now tottering to its fall, may raise a howl about this, and endeavor to have the order modified, but we think they will not succeed this time. The government, as well as the nation, has been educated since August last when Gen. Fremont initiated this policy, and the necessity of it has become palpable.

A Conservative Movement.

The Vallandigham democrats, and old Mr. Crittenden, have been holding a "conservative" caucus at Washington. The only professed republican who attended the gathering was Kellogg of Illinois. There are others who sympathize with the movement, but were too conservative of their own "bread and butter" to take an open position. The object professedly sought was to head off the "abolitionists" and prevent congress from adopting "extreme" measures—such as punishing traitors for their rebellion by confiscating their property and taking their slaves from them. These fellows strongly object to the suspension of forcing a new party. They evidently think that the old democratic organization is a fit instrument for their purposes, but they desire to make a bridge for certain weak-backed republicans to walk over into their camp. Well, we can spare all such men—let them first call themselves "conservatives," then democrats, and the thing is done.

Steam Battering Rams.

It is stated in our dispatches that steam rams have been ordered from St. Louis to reinforce our flotilla at Fort Wright. Others have been fitted out at Cincinnati, consisting of river boats, a number of which were purchased at Pittsburgh, some months since. They have been raked and altered by covering their sides with live oak timber, sixteen inches thick. The prows are iron plated and sharp. They are said to be very powerful and capable of running down any craft the rebels may have aloft on the Mississippi. They are completed in good time, as the "battering" received by our gunboats from the rebel rams in the last encounter, was a little too severe to be agreeable; and in another encounter, without the aid of similar crafts, might prove disastrous.

Removal of the Embargo on Certain Ports.

The President has issued a proclamation declaring that the blockade of the ports of Beaufort, Port Royal and New Orleans shall so far cease to determine from and after the 1st of June next, that commercial intercourse with these ports, except as to persons and things and information contraband of war, may from that time be carried on, subject to the laws of the United States, and to the limitations and in pursuance of the regulations which are prescribed by the secretary of the treasury.

Providing Against a Famine in New Orleans.

A dispatch from New York states that a movement is making by the government which indicates a design on its part to assist the starving people of New Orleans, as in the case of those at Newbern and other points. In accordance with orders received at New York, the steamer Ocean Queen is to be loaded with commissary stores and sent direct to New Orleans. It is understood that these stores are for distribution, as General Butler may direct.

Our Soldiers' Allotments.

We present our readers, to-day, with an official statement of allotments obtained by the commissioners from about one-third of our regiments, with the station of the regiments at the time the allotments were made. It will be seen from the synopsis that half a million of dollars per annum has thus been secured to the families of the soldiers now living in our midst, a very great portion of which would probably never have found its way to our state without the efforts of the commissioners. The public can now form a better opinion of the value of the system, having the data before them. With the experience now obtained, the commissioners feel assured that nearly two million per annum may thus be returned to the state. Need we suggest to the thinking man the amount of happiness and comfort it brings to the families of the soldiers, of the wretchedness relieved, and taxation avoided? Of the encouragement to the soldier well-disposed, and the check upon the thoughtless or vicious, by withdrawing temptation? Of course, the work is not accomplished without time and money, and with such results before them we trust our legislature will more seriously and generously appreciate the labor.

BEAUREGARD'S ARMY.—The Charleston Mercury of May 3rd says Beauregard can command all the men that can be armed, and that it is believed at New Orleans that his army numbers 125,000 men, with a good number of sick from lime water.

Last Night's Report.

CHICAGO, May 15.

Special to Tribune.—Fort Wright 13th. Last evening the rebels commenced shelling a place behind the point which was until yesterday, occupied by our mortar boats.

Forever float that standard sheet!
Where breathes the foe but falls before us!
With Freedom's soil beneath our feet,
And Freedom's banner streaming over us!

From Pittsburgh Landing.

We learn from gentlemen directly from Pittsburgh Landing that the loss of the 8th Wisconsin, in the severe skirmish on the 8th inst., was four killed and thirteen wounded. We hear of no names except that of Lieut. Beaman of this city.

Two hundred and eighty sick Wisconsin soldiers were left at the hospital in St. Louis, on Wednesday. There are about 4,000 of Gen. Halleck's army in the general hospital at Hamburg on the Tennessee river.

Our army is less than two miles from Corinth, and a battle must take place in a few days. Heavy siege guns are being put in position by our army, while entrenchments are thrown up as they advance.

"Forever Free."

These are the inspiring words which Gen. Hunter has used to the one million of slaves in the states of South Carolina, Georgia and Florida. Although true and loyal to the Union, while their masters are traitors, they have not heretofore been recognized as in existence by our government. Now, through one of its trusted commanders, it invites them to assume the attributes of manhood, and from themselves into companies, regiments and brigades, and fight against their rebel masters for the Union and for freedom.

This determination has not been taken too soon. Without taking into account the rights of these loyal colored men, and thinking only of our army there, this act of Gen. Hunter's was necessary to save from death the troops under his command. The yellow fever will soon be upon him, and he must have soldiers inured to the climate. He finds them all around him ready and willing, if he will give them the rich boon of liberty. He has done it, and they will respond to his call.

It is possible that the friends of the system of slavery, now tottering to its fall, may raise a howl about this, and endeavor to have the order modified, but we think they will not succeed this time. The government, as well as the nation, has been educated since August last when Gen. Fremont initiated this policy, and the necessity of it has become palpable.

A Conservative Movement.

The Vallandigham democrats, and old Mr. Crittenden, have been holding a "conservative" caucus at Washington. The only professed republican who attended the gathering was Kellogg of Illinois. There are others who sympathize with the movement, but were too conservative of their own "bread and butter" to take an open position. The object professedly sought was to head off the "abolitionists" and prevent congress from adopting "extreme" measures—such as punishing traitors for their rebellion by confiscating their property and taking their slaves from them. These fellows strongly object to the suspension of forming a new party. They evidently think that the old democratic organization is a fit instrument for their purposes, but they desire to make a bridge for certain weak-backed republicans to walk over into their camp. Well, we can spare all such men—let them first call themselves "conservatives," then democrats, and the thing is done.

Steam Battering Rams.

It is stated in our dispatches that steam rams have been ordered from St. Louis to reinforce our flotilla at Fort Wright.—Others have been fitted out at Cincinnati, consisting of river boats, a number of which were purchased at Pittsburgh, some months since. They have been razed and altered by covering their sides with live oak timber, sixteen inches thick. The prows are iron plated and sharp. They are said to be very powerful and capable of running down any craft the rebels may have afloat on the Mississippi. They are completed in good time, as the "butting" received by our gunboats from the rebel rams in the last contest, was a little too severe to be agreeable; and in another encounter, without the aid of similar crafts, might prove disastrous.

Removal of the Embargo on Certain Ports.—The President has issued a proclamation declaring that the blockade of the ports of Beaufort, Port Royal and New Orleans shall so far cease and determine from and after the 1st of June next, that commercial intercourse with these ports, except as to persons and things and information contraband of war, may from that time be carried on, subject to the laws of the United States, and to the limitations and in pursuance of the regulations which are prescribed by the secretary of the treasury.

Providing Against a Famine in New Orleans.—A dispatch from New York states that a movement is making by the government which indicates a design on its part to assist the starving people of New Orleans, as in the case of those at Newbern and other points. In accordance with orders received at New York, the steamer Ocean Queen is to be loaded with commissary stores and sent direct to New Orleans. It is understood that these stores are for distribution, as General Butler may direct.

Our Soldiers' Allocations.

We present our readers, to-day, with an official statement of allocations obtained by the commissioners from about one-third of our regiments, with the station of the regiments at the time the allocations were made. It will be seen from the synopsis that half a million of dollars per annum has thus been secured to the families of the soldiers now living in our midst, a very great portion of which would probably never have found its way to our state without the efforts of the commissioners. The public can now form a better opinion of the value of the system, having the data before them. With the experience now obtained, the commissioners feel assured that nearly two million per annum may thus be returned to the state. Need we suggest to the thinking man the amount of happiness and comfort it brings to the families of the soldiers, of the wretchedness relieved, and taxation avoided? Of the encouragement to the soldier well-disposed, and the check upon the thoughtless or vicious, by withdrawing temptation? Of course, the work is not accomplished without time and money, and with such results before them we trust our legislature will more seriously and generously appreciate the labor.

BEAUREGARD'S ARMY.—The Charleston Mercury of May 5th says Beauregard can command all the men that can be armed, and that it is believed at New Orleans that his army numbers 120,000 men, with a good number of sick from line water.

Office in Union Passenger Depot

Last Night's Report.

CHICAGO, May 15.

Special to Tribune.—Col. Wright 13th. Last evening the rebels commenced shelling a place behind the point which, was until yesterday, occupied by our mortar boats. They kept up the fire during the night, the shells exploding wide of the mark. They are provided with mortars equal in weight of metal to those used by the federal fleet. Capt. Winslow was despatched by the mail steamer, yesterday, to St. Louis for the purpose of bringing our rams to this place as soon as possible. The gunboat Louisville, which has been stationed at Hickman, has joined the fleet. Preparations have been completed on all the gunboats now here which, in the opinion of the ablest military officers, effectually render useless any rebel contrivances of the ram species.

CAIRO, May 15.

An expedition, consisting of six squadrons of the 1st Wisconsin cavalry, from Cape Girardeau, went to Bloomfield on Saturday. Early Sunday morning they fell upon the rebel Col. Phelps' camp scattering them in every direction. One killed, 11 captured. Large number of horses and a quantity of camp equipment and ammunition taken. Rebel forces numbered 600 or 6000 in the Chalk and Poplar Bluffs, impressing all the men. The country is being swept of horses, cattle and supplies, which are sent south. The country is represented to be in a state of great terror.

CHICAGO, May 15.

Special to Tribune from Cairo.—When Gen. Mitchell joined his forces with Gen. Pope, he brought with him 2,500 prisoners. They will be sent to Cairo as soon as transportation can be obtained. In the battle at Farmington one rebel general, supposed to be Bragg, was killed. Fifteen deserters came into our lines from Corinth. They report several more regiments mutilated—among them the 1st Louisiana, 1st Alabama and 2d Tennessee regiments.

CUMBERLAND, Va., May 11.

Gen. McClellan's headquarters were established here yesterday, and are now pleasantly located on the bank of the Potomac river. The main body of the army is rapidly concentrating at the point designated by the commanding general. A contraband, who arrived from Richmond, states that between that city and the Chickahominy river, a distance of some seventeen miles, the enemy are encamped in large force, where they expect to await the arrival of the army of the Potomac. As the enemy fall back they drive before them most of the cattle, sheep and hogs, leaving only such things as they cannot move. Explosions were heard, yesterday, in the direction of the Chickahominy, which are supposed to have been caused by the blowing up of the railroad bridges.

NEW YORK, May 15.

The Post says advice, per the Cubahead, state that Gen. Hunter has issued a proclamation freeing the slaves in his department. He was organizing a negro brigade, and had detailed some officers to train the contrabands in the use of arms. Hon. Charles Jared Ingersoll died in Philadelphia, yesterday, in the 80th year of his age.

(Special dispatch to Chicago Tribune.)

WASHINGTON, May 15.

The tax bill will be taken up in the senate to-morrow, and Mr. Fessenden will urge its passage mainly as reported by the committee. Mr. Simmons will propose radical changes, retaining taxes as in the reported bill. On petroleum oils, liquors, distilled and fermented, and tobacco of all kinds and playing cards he raises the income tax five per cent, and substitutes for the rest of the bill a tax of five dollars on persons held to service, between ten and sixty-five years old. One half of one per cent on producer and manufacturer and merchant on sales to the value of more than one thousand dollars yearly; the same on insurance premiums. Three per cent on net receipts of railroad, steamboat, ferryboat and omnibus companies.

Every one taxed under this section is to pay for a license the sum of ten dollars annually—the secretary of the treasury to decide whether the tax shall be paid in money or stamps. It is believed the opposition to the house bill will be concentrated on this.

The house passed without opposition the bills enabling the district blacks to educate their own children, and repealing the black code.

A vote of thanks to Chief Officer Farragut and other New Orleans officers.

The Arizona bill will be passed by the senate to-morrow. It is reported with three amendments, one fixing the capital at Tucson; one making the governor the ex-officio superintendent of Indian affairs; one limiting each session of the legislature to forty days.

The recent battle at Williamsburg, if it effected nothing whatever, was one of the hardest fought actions of the war.

One of the regiments which suffered most bravely was the first Excelsior of Sickles' brigade, the action of which can be taken as a sample of Yankee fighting. It was ordered to hold a position on Hooker's left, and remained without reinforcements and exposed to the fire of several regiments until ordered to withdraw. Two field officers, twenty-one company officers, and four hundred out of eight hundred men were killed or wounded.

One of the regiments which suffered most bravely was the first Excelsior of Sickles' brigade, the action of which can be taken as a sample of Yankee fighting. It was ordered to hold a position on Hooker's left, and remained without reinforcements and exposed to the fire of several regiments until ordered to withdraw. Two field officers, twenty-one company officers, and four hundred out of eight hundred men were killed or wounded.

They were completely demoralized and cursing their officers, and I suppose are reduced to some 800 to 1,000.

Col. Cranby, with his forces, some 2,000 strong, is following in their rear, and some slight skirmishing has taken place.

Col. Paul, with the first column of regulars and the Colorado volunteers, form the rear column. They are clamorous for a fight.

Our news is that Col. Cranby, with his entire force, is at or in the vicinity of Port Craig, and the most of the enemy are making their way south.

Albuquerque and Santa Fe are now occupied by the federal forces, and Col. B. S. Roberts, U. S. A., is in command of the northern district, and thus ends the conclusion of this redoubtable Texan invasion.

TO-DAY'S REPORT.

(Reported Exclusively for the Daily Gazette.)

MORNING DESPATCHES.

NEW YORK, May 16.

The following is Gen. Hunter's proclamation alluded to yesterday:

GENERAL ORDER NO. 11.

HEADQUARTERS DEPT. OF THE SOUTH, Hilton Head, May 15.

The three states of Georgia, Florida and South Carolina, comprising the military department of the south, having deliberately declared themselves no longer under the protection of the United States of America, and having taken up arms against said United States, it became a military necessity to declare martial law. This was accordingly done on the 25th day of April, 1862, slavery and martial law, in a free country are altogether incompatible; the persons in these three states of Georgia, Florida and South Carolina, heretofore held in slavery, are, therefore, declared FOREVER FREE.

WASHINGTON, May 15.

Tribune dispatches.—Marylanders say that a few days ago 1,000 slaves, as if by a preconcerted movement, simultaneously left kind masters and happy homes, in Prince Georges county, Maryland, and came to the District of Columbia, where they still are.

The provisions of the homestead bill, as agreed upon by the committee of conference, are extended to all in the military and naval service of the United States, whether naturalized or not, whether 21 years of age or not. Disloyal persons are precluded from availing themselves of it. Forty, 60, 120, or 160 acres can be located, and the settler of a tract of 40 acres holding upon government land can take enough to complete his section.

A dispatch from Fredericksburg says: A large iron foundry, which until the arrival of the federal army at that place, was in casting shot and shell, and in rifling cannon for the rebels, was on Wednesday taken possession of by an officer of Gen. McDowell's staff. Yankee mechanics were immediately set to work in the federal service and are producing the best specimens of workmanship.

WASHINGTON, May 15.

Herald's dispatch.—The impression is gaining ground that Mr. Simmons' schedule of a tax bill will be substituted by the senate for the house bill. It is stated that, although the finance committee agreed to report the house tax bill, a majority of the committee is opposed to it. Mr. Simmons bill preserves the machinery of the revenue, \$100,000,000 to be raised on imports, \$100,000,000 from a tax of one half of one per cent on all sales, and the balance from a tax on spirits, malt liquors, playing cards, tobacco, oils and licenses. These are the only articles specially taxed. It is generally believed that this programme for a revenue will prevail.

NEW YORK, May 16.

The Herald publishes an article from the Charleston Courier of an extraordinary and most significant character, admitting the hopelessness of the rebel cause, and acknowledging that the misfortunes which have befallen the rebel states are no more than their just deserts.

WASHINGTON, May 15.

Herald's dispatch.—Hon. Jacob H. Blair, of Western Virginia, received this morning, the following startling communication from one of his constituents in Virginia: We are all in a great state of excitement here. The town of Burning Springs, in West county, was burned, yesterday afternoon, by the Warrenton Rangers, also Palestine. Everything at the former place was destroyed. This town is full of fugitives. It is not known who have been killed, though many are missing. Charles Shattuck was shot at twice, across the river. The last seen of the Warrenton Rangers, by fugitives here, they were taking the goods out of the boats in the river. It is not known what has become of the small military force in that region. The number of Warrenton Rangers is not known, though many fix it at 600. Where the devil did they come from? The town of Elizabeth is deserted, and by this time is probably burned. Some consider this place in imminent danger. They have but one company of soldiers here. The citizens would turn out to a considerable extent if they only had arms.

NEW YORK, May 16.

Among the passengers by the steamer Oriental, which sailed yesterday for Port Royal, was Capt. Rufus Saxton, U. S. A., now brigadier general of volunteers, the military governor of South Carolina and the Department of the South, which includes the whole district of Major General Hunter's command.

PORTSMOUTH, May 15.

In consequence of a storm there is no dispatch to Cherry Station this afternoon. Sec'y Seward, Sec'y Welles and Atty Gen. Bates arrived here this morning, and proceeded to Norfolk with Com. Goldsboro and Gen. Wool. All is quiet there. Orders have been issued by Gen. Wool, prohibiting the sale or distribution of newspapers in Norfolk, or the surrounding country; also prohibiting the transportation of these supplies or merchandise of any kind, whether by rail or otherwise, and also prohibiting officers, soldiers and citizens from visiting the city, except on business connected with the troops belonging to the department of Virginia. We understand the embargo upon travel to Port Monroe from Baltimore will soon be removed. Adams Express Co. have secured a location, and will open an office in Norfolk, to-day.

CHICAGO, May 16.

I am informed by the Times reporter at Cairo, that the circular purporting to emanate from Jeff Davis is known by him to be a hoax. Says he knows the author, but declines to give his name.

WASHINGTON, May 15.

The fugitive slave law is being strictly enforced in the District, to-day. The military authorities not interfering with the judicial process. There are at least 400 cases pending. It is said that some of the negroes whose owners or agents, from Maryland, are here seeking their recovery, mysteriously disappeared this morning.

Paragraph 20, general order No. 102, dated at Memphis, last, having been revoked, the officers and men transferred to soldiers' regiments under its operation, will be assigned to their original regiments as fast as vacancies occur.

WASHINGTON, May 16.

SENATE.—Mr. Sherman made a statement in reference to the testimony given by Mr. Holman of Indiana, in the house, who said, speaking of the investigating committee, that he, Sherman, was on the committee and received \$8 a day. Mr. Sherman said that he had been on two committees—one was the Kansas committee, and the other the naval investigating committee, and neither committee ever charged or received a cent of mileage.

Mr. King presented a memorial from merchants and others of New York, asking for the speedy passage of the Pacific railroad bill.

THE MARKETS.

NEW YORK, May 16.

Flour receipts 2,262 barrels, market without decided change. Sales 100 barrels, 4,500-4,550 super western; 4,700-4,900 common to medium extra western. Wheat receipts 51,593 bushels, market steady, fair export demand. Sales 60,000 bushels, 1.09-1.12 Milwaukee club; 1.16 winter red western.

Correspondence of the Janesville Daily Gazette.

Quavers from the Capitol.

WASHINGTON, May 2, 1862.

There has been much excitement and general joy in the city to-day among all classes (secessionists and "Union men" but excepted) over the news telephoned from Fort Monroe by Secretary Stanton, of the fall of Norfolk, and the destruction of the iron-clad nondescript Merrimack. Some people are feeling considerably disappointed that this great bug-bear could not have been finally disposed of by a second "bout" with the little Monitor. But if the truth ever comes out, there is little doubt but what the Monitor is entitled to the credit, after all, of being the real "giant killer!" It is a pretty well established fact that the monster has been in no condition of seaworthiness since she withdrew from the memorable conflict with her plucky little antagonist some months ago; and that in reality she received her death blow on that occasion. It has been recently learned, from those who have had the very best opportunity to know in what condition she retired from that fight, that her frame was so shaken, and her ribs so shattered that it has been found impossible to so far repair damages as to keep her from looking badly, and that her "lying around off Craney Island," recently, for two days, was that she was run aground in order that her engines might have the opportunity to "pump ship," so as to make it safe to perform the voyage back to dry dock again! But as the would-be suicides have disposed of the carcass beyond the possibility of a post mortem examination, it is but natural to presume there were "marks upon the body" which they were determined should never come to light. Let history, therefore, give "honor to whom honor is due." THE MONITOR SUNK THE MERRIMACK!

Discussion has been quite animated during the day, as to whom shall be awarded the credit of the victory at Norfolk. The "Union" as it was, "severs contend that it is a 'sequence of Gen. McClellan's strategy,' while the 'Onward to Richmond men' declare that 'it was an independent movement; conceived and directed by the President and Secretary Stanton as a backbone stiffener to urge the general

Singer's Letter A Machine,

is the best machine in the world for Family Sewing
and Light Manufacturing purposes; Price, (with
accessories), and beautifully ornamented,
FIFTY DOLLARS.

The Nos. 1 and 2 machines are of great capacity and
application for manufacturing purposes.
Our No. 3 machine are especially adapted to all
kinds of light and heavy

LEATHER WORK,

in Carriage Trimming, Boot and Shoe Making, Harness
Making, etc., etc. They are of extra size, with an
iron frame enough to take under it and stitch the large-
est articles. There is scarcely any part of a Trim-
mer's stitching that cannot be better done with them
than by hand; so, too, the saving of time and labor is
evident. To illustrate these machines let us furnish
quantity of thread, and the shuttle will hold six times the usual
length of thread. The large machines work as fast

We would ask for our Letter A Machines, the special
attention of Vest Makers and Dress Makers, and all
those who have been troubled by inferior manufacturing pur-
poses. They embody the principles of the standard
machines, making like them, the interlock stitch, and
are suitable also as celebrated for Family and
light manufacturing purposes. Our standard ma-
chines are for manufacturing purposes in general.
We have always on hand

We manufacture our own Needles, and would warn
all persons using our machines not to buy any others.
To know that there are needles at low, yet most infer-
ior quality, at higher prices than we charge for the best,
the needles sold by us are manufactured especially for
our machines. *A bad needle may render the best ma-*
chine useless.

which is a beautifully illustrated Pictorial Paper. It
will be sent Gratis

We have made the above Reduction in Prices with
two-fold view of benefiting the public and ourselves.
The public have been swayed by numerous machines
made in imitation of ours. The metal in poor quality,
from the iron casting to the smallest piece, not from quality,
but from quantity. By doing a great deal of business
they are led away in secret places, where it would be
impossible to have at their command the proper ma-
terial and appliances at such a low rate. We have no
dealers, and having extensive manufacturing establish-
ments, that good machines can be made at moderate
prices. The best designs of machines, Body Study, and
others, being able to get out of order, and are sure to cost
considerable trouble and money to keep them in repair.
The quality to be looked for in a machine are, cor-
rectness of construction, ease of operation, simplicity of
construction, great durability and rapidity of operation,
with the least labor. Machines to combine these essen-
tials of quality, must be made of the best material, finish-
ed to perfection. We have the ways and means, on a
scale such, to do this.

The purchase of machines, whose daily bread it
may concern, will find that those having the above
qualities not only work well at rapid as well as slow
rates of speed, but last long in the fastest, possible work-
ing order. Our machines, as made by us, will earn
more money with less labor than any others, whether
infused with care to make of the best material, finish-
ed to perfection, or any other machine as a gift.
